

## LAMPIRAN

### Lampiran 1: Uraian Kegiatan

Berikut merupakan tabel uraian kegiatan yang kami lakukan selama masa PKL (Praktek Kerja Lapangan), yang mengangkat judul “PEMBUATAN WEBSITE PORTAL INFORMASI STUDYINJOGJA.COM PRAKTEK KERJA LAPANGAN”

Minggu	Tanggal	Kegiatan
Minggu 1	10 - 13 Januari	• Pengembangan Kuliner
Minggu 2	16 - 20 Januari	• Pengembangan Kuliner
Minggu 3	23 - 27 Januari	• Pengembangan Study
Minggu 4	30 Januari - 3 Februari	• Pengembangan Wisata

### Lampiran 2: Source Code

Berikut merupakan Source Code Pembukaan Account Admin dan Booking

Fitur	Source Code
Register	<pre>controller.register = async (req, res) =&gt; {     try {         const salt = await bcrypt.genSalt(10);         const hash = await bcrypt.hash(req.body.password, salt);         await model.user             .findOne({                 where: {                     email: req.body.email,                 },             })             .then((result) =&gt; {                 if (result) {                     res.status(400).json({                         message: "email sudah terdaftar",                         status: 400,                     });                 } else {</pre>

	<pre> model.user     .create({         nama: req.body.nama,         email: req.body.email,         uid: uid(),         password: hash,         role: "user",         createdAt: new Date().getTime(),         updatedAt: new Date().getTime(),     })     .then((result) =&gt; {         res.status(200).json({             message: "register berhasil",             status: 200,             data: result,         });     }) } } ); } catch (error) {     res.status(400).json({         message: error.message,         status: 400,         data: [],     }); } } ; </pre>
Login	<pre> controller.login = async (req, res) =&gt; {     try {         await model.user             .findOne({                 where: {                     email: req.body.email,                 },             })             .then(async (result) =&gt; {                 if (result) {                     const validPassword = await bcrypt.compare(                         req.body.password,                         result.password </pre>

```
        );
        if (validPassword) {

### Lampiran 3: Dokumentasi Briefing Pengerjaan

### Lampiran 4: Dokumentasi Pengerjaan

A screenshot of a Visual Studio Code (VS Code) interface. The title bar says 'booking.js - backend-service - Visual Studio Code (Administrator)'. The left sidebar shows a file tree with files like config.json, booking.js, user.js, etc. The main code editor window shows the 'booking.js' file with some JavaScript code. Below the code editor is a terminal window displaying migration logs:

```
Loaded configuration file "config/config.json".
Using environment "development".
== 20230606170627-insert_initial_user: migrating =====
== 20230606170627-insert_initial_user: migrated (0.253s)

ACER@LAPTOP-01096KKK MINGW64 /a/semester 6/PKL/backend-service
$ + History restored
```

The bottom status bar shows 'Ln 1, Col 1 Spaces: 2 UTF-8 LF {} JavaScript Go Live Prettier'.

**PT IMERSA SOLUSI TEKNOLOGI**

Jl. Puntodewo 2 Baron, Nganjuk, Jawa Timur

Telp. 085755896233 E-mail : [mail@imersa.co.id](mailto:mail@imersa.co.id)

Nomor : 017/PR.IMERSA/INTERNSHIP/I/2023  
Lampiran : -  
Hal : Surat Keterangan Selesai PKL

### **SURAT KETERANGAN**

Yang bertanda tangan dibawah ini:

Nama : Miftahur Roziqin, S.Kom  
Jabatan : Direktur PT Imersa Solusi Teknologi

Dengan ini menerangkan bahwa mahasiswa dengan identitas dibawah ini:

Nama : Muhammad Abi Prakosa  
NPM : 20081010232

Nama : Arif Fajar Pangestu  
NPM : 20081010236

Nama : Eragradiansyah Hardianto  
NPM : 20081010218

Telah menyelesaikan kegiatan Praktik Kerja Lapangan (PKL) di PT Imersa Solusi Teknologi. Praktek Kerja Lapangan dilakukan selama 1 bulan terhitung mulai tanggal 9 Januari – 9 Februari 2023. Selama melakukan kegiatan PKL, mahasiswa tersebut telah bekerja dengan baik.

Nganjuk, 9 Februari 2023

Direktur

PT Imersa Solusi Teknologi
