## ABSTRACT

This study aims to analyze the role of *Fear of Missing Out (FOMO)* as a mediating variable between *social engagement* and *influencer marketing* on the *purchase decisions* for smartphones with innovative features among Indonesian consumers. The main problem addressed is the lack of clarity on how digital marketing stimuli are converted into *purchase decisions* for high-involvement products in a competitive market characterized by feature homogenization.

The objective is to examine the direct and indirect effects of these variables to provide an empirical model of modern consumer behaviour. This research uses a quantitative approach. Data was collected through an online questionnaire distributed to 100 Indonesian social media users, with the sample predominantly consisting of Gen Z and students. The data was analyzed using the Partial Least Squares Structural Equation Modeling (PLS-SEM) method with SmartPLS 4.0 software to test the relationships between the variables and the proposed hypotheses.

The findings of this study indicate that *FOMO* has a strong and significant direct influence on *purchase decisions*, as does *influencer marketing*. *Social engagement*, however, does not have a significant direct effect. The most prominent conclusion is that *FOMO* acts as a significant and powerful mediator for both *social engagement* and *influencer marketing*. This reveals that *FOMO* is the key psychological mechanism that translates social media activities.

## **FOREWORD**

First and foremost, the author would like to express the deepest gratitude to Almighty God for His grace and blessings, which enabled the completion of this thesis entitled “THE ROLE OF FEAR OF MISSING OUT (FOMO) AS MEDIATING FACTOR BETWEEN SOCIAL ENGAGEMENT AND INFLUENCER MARKETING ON SMARTPHONE PURCHASE DECISIONS IN INDONESIA.” This thesis was prepared as a partial fulfillment of the requirements to obtain the Master’s Degree in Management at the Faculty of Economics and Business, Universitas Pembangunan Nasional “Veteran” Jawa Timur. The choice of this topic was based on the author's received focus in marketing management and the author's personal interest in consumer behavior within the field of marketing itself.

The author sincerely expresses appreciation and gratitude to:

1. The Rector of Universitas Pembangunan Nasional “Veteran” Jawa Timur, for providing academic guidance and support throughout the author’s study.
2. The Dean of the Faculty of Economics and Business, for facilitating the academic process with professionalism and dedication.
3. The Head of the Master of Management Study Program and all lecturers of the Faculty of Economics and Business, for their knowledge, encouragement, and invaluable insights shared during the study period.

4. The first supervisor, Dr. Muhadjir Anwar, M.M., CFP, for the continuous guidance, constructive feedback, and encouragement throughout the research process.
5. The second supervisor, Dr. Sugeng Purwanto, SE.MM, for the thoughtful advice, patience, and valuable suggestions that helped the author refine this work.
6. All respondents, who took the time to participate in the survey and made this research possible.
7. Family members and close friends, for their constant prayers, moral support, and encouragement that kept the author motivated during the preparation of this thesis.
8. Fellow students of the Master of Management Program, for their companionship, cooperation, and shared learning experiences throughout the academic journey.
9. Other individuals who cannot be mentioned individually, the author expresses gratitude for their assistance and prayers during the journey of this final thesis.

May this thesis serve as a learning experience for many fellows, bringing forth benefits and inspiring further research endeavors.
